2xtreme Dream is a 10-month long, reward-based adventure therapy program of fortitude that provides teen boys the opportunity to turn their lives around. In addition to their counseling therapy sessions, the team of boys also comply with 7 behavior facets that comprise the Dream: design their own therapy treatment plan, maintain good grades, hold a part-time job, perform community service, stay drug and alcohol free, have no negative police contact, and resolve conflicts at home.

The program culminates with a mountaineering expedition in a foreign land - past Dream Teams have climbed in Africa, the Andes in Peru, Russia and Bolivia. Dream alumni identify the community service project that coincides with their climb locally as the most rewarding part of the Dream trip. Dream participants discover a world immensely larger than they imagined. With gratitude, Dream alumni pay forward their appreciation of 2xtreme Inc., for years after they have finished the program. These alumni have gone on to become successful businessmen, incredible husbands and loving dads.
